JECKOTM

SEATS

Jecko Racing Seats' seats are an avant-garde product in the kart world with regards to both the technology and the design.

Team and drivers' experience allowed us to develop our seats, size and shape are improved and renovated, seats end up being more ergonomic, more elastic and of high quality.

JECKO choose and selected 3 seat types:

EXT | STANDARD | CLOSEDGE

- EXT: this is the softest and lightest line, used only in group A size;
- STANDARD: is the best line in every atmospheric condition;
- CLOSEDGE: our patent system, makes up the closure of the seat's edge which increases the stiffness.

The peculiar shape of the seats has been achieved after an in-depth study of the ergonomics and the high level of tension/stress originating from the modern kart driving.

JRIB is a second skin, it protects drivers from injuries, vibrations and chafings, JRIB means protections, dynamism, grip and comfort too.

The particular shape of the side and back padding has been achieved after a deep study of each particular:

- Paddings are ergonomic and more comfortable thanks to special sewing
- Our high quality lining fabric allows perspiration in every season, in the warmest weather too

JRIB is totally adjustable from shoulders and abdominal straps, with double elastic band and a special pull tab which facilitates opening.

JRIB is technology, perfect fit, totally handmade, comes in 2 versions:

- Standard
- Custom

Standard Jrib includes black inner sections and 3 different graphic designs:

- Green Fluo
- Yellow Fluo
- Orange Fluo

Here it is!!! CUSTOM JRIB wants to give you more! Jrib family grows up with 3 other different inner paddings:

- Blue
- Red
- Green

You can choose which is your favourite and mix with the following external graphics:

- Green Fluo
- Yellow Fluo
- Orange Fluo

Give to your JRIB you character: the padding colors contrasting with the external band give to your Jrib a lively and exuberant look: your perfect look with the protection, dynamism and comfort that you need.

Be different, be unique, be CUSTOM JRIB!

Note

FLOORTRAYS FACTORY

Floortray is a fundamental part of a kart as it can be compared to all intents and purpose with a single-seated car's one.

It occupies a high percentage of framework area, affecting its rigidity and consequently its performance. To satisfy those requirements, JECKO has devised a floortray that's very soft and light thanks to combination of its aesthetics and the use of high quality raw materials.

Karts become very original and dynamic with our colored floortrays, you can find them in Silver, Orange, Yellow and Blue.

Factory can personalize their floortrays with their own livery to match the kart aesthetics.
